January 2, 2019

Dear Community Leader,

Over the past year Marshall County has taken the initiative to make great plans. Many of our leaders have spent time around tables dreaming about what Marshall County and our communities could be. Together we have applied for grants and seen many wonderful events take place.

I'd like to invite you to come join us for a different type of event. One that will help us all gain deeper insight into those in our communities living in poverty. The Center, along with Plymouth Community Schools and Marshall County Extension Office, will be hosting a Poverty Simulation on Wednesday, January 23rd from 10am – 1pm. Marshall County continues to have a growing population of those living at or below poverty level. It is important as Community, Government, Health, and Faith and Education Leaders that we seek to understand and learn more about how to help lift people out of poverty. This simulation helps to provide a glimpse into what a month in the life of poverty looks like and feels like.

Will you consider participating in this event? Our heart is to see key leaders in our community growing and finding ways to better engage those living in poverty and working together to find and build solutions to the needs in our community.

Poverty Simulation
Wednesday, January 23rd
10am-1pm
Plymouth Community Church/Stockman Youth Building

Please RSVP no later than January 16th by calling the Center at 936-3388 or by email to directormcnc@gmail.com

Blessings,

Christine Garner
Executive Director
